Hello

I am replying to the recent letter we received from Dr M Legosz regarding the review of the off-road motorbike noise laws.

We do not have a specific by-law that controls motorbike noise except what is in our by-law for nuisances, and even that does not mention noise from motorbikes.

We do not have big problems with motorbike noise, as people in these small towns accept that bike and young people go together, and just about every family has bikes. We have had complaints about motorbike speeding and hooning, but not much.

Please contact either Lisa Hamlyn, who will be acting in my role as I will be on leave, or Angie Hennessy, our environmental officer, if you want more information

Thank you,
