## Your submission

---

You may wish to address the following considerations in your submission.

### Open, transparent and accountable government

I have found the government has not been an open, transparent and accountable. My information of corrupt activity tabled in parliament, was met with fierce opposition by MPs.

### Freedom of speech

The main stream media is not available to everyone, that is it is politically controlled. On the other hand Social Media is available to us all. There has been a lot of crime delt with due to media exposure and to make it illegal to tell of crime is a crime itself. If it is made illegal to speak of crime reported to the CCC I will do every thing I can to encourage people not to submitt to the CCC. I will recommend that it be made public either through social media, tabled in parliament or both. I will be naming people.

### Reputation of alleged subject officers

The people I am naming as of concern are [REDACTED] [REDACTED] [REDACTED] [REDACTED] these and all others supporting legislation to block the exposure of crime will be named on social media. The Voting Public will be aware of who is doing what.

### Fair trial

Police have a method in dealing with publishing of sensitive information, why hasn't the CCC? Why people publise that there is a case before the CCC is most likely because the CCC has a reputation for protecting criminals in government and not prosecuting. The only justice one can have is to publise.

### Effectiveness of the CCC

The CCC has many cases where it it is protecting criminals in government.

## Other

The CCC has no creditability and should be either reformed or discarded. If anyone doubts my statements that the CCC is corrupted by corrupt people in government please ask for my evidence which I will be pleased to present. Greg Diete and No Longer Mystified on Facebook will give you an idea of what people find the CCC to be and the level of corruption covered up by the CCC.
